

WASTE WATER TREATMENT PLANTS

We design and provide equipment and systems for extraction, boosting, cleaning, combustion and energy utilization of biogas to energy projects in the field of Waste Water Treatment Plants.

Our product portfolio comprises of:

- Gas Storage
- Flares
- Blower
- Compressors
- Mixers&Pumps
- Tube-in-tube Heat Exchangers
- Filters
- Heat Exchanger&Chiller
- Siloxane Removal Systems
- Odor Control Units
- Digester Equipments
