

## ANIMAL AND AGRICULTURAL WASTES

We design and provide equipment and systems for extraction, boosting, cleaning, combustion and energy utilization of biogas to energy projects in field of animal and agricultural waste from anaerobic digestion.

Our product portfolio comprises of:

- Bio-Extruders
- Pelleting Units
- Composting Systems
- Gas Storage Tanks
- Flare Stacks
- Filters
- Biogas Drying Units
- Desulphurization Units
- Gas Analysis Systems
- Digesters Ancillary Equipments
